Solution Corner:

- Tired of an outdated or insufficient accounting system? **ACG** offers **accounting solutions** to meet your functionality requirements **and** your budget!
- Interested in dashboard - based performance metrics? Contact **ACG** about the exciting new **Xcelsius 2008 Dashboard Designer** from Business Objects!
- **Want more** from your MAS90, MAS200, Abra or QuickBooks system? **Have employees who haven't been trained?** Use **ACG Business Process and Training** services to **streamline** your processes and **maximize** your system output.

Intuit Chooses ACG as Enterprise Solution Provider

ACG has been invited by Intuit to become an Intuit **QuickBooks Enterprise** Solution Provider. ACG was chosen due to their 20+ years of successful business consulting services and dedication to customer satisfaction.

"We are delighted to add the **QuickBooks Enterprise** product to our toolbox!" said Allyn Conway, President of ACG. "This product gives us the ability to expand our solutions for our customers and simultaneously achieve customer goals in **functionality** and **cost of ownership**."

ACG has worked with a number of QuickBooks clients, increasing effectiveness and productivity by offering business process consulting and upgrades to the **QuickBooks Enterprise Edition**.

TimeCentre Chooses ACG as Business Partner

ACG is proud to announce **TimeCentre** as our new offering for a total time and attendance management system. As with Intuit, TimeCentre solicited ACG to represent their products, based on ACG's proven customer satisfaction history.

Since 1985, TimeCentre, Inc has been combining technology with convenience for maximum control of time, attendance, and labor & scheduling with employee self-service. Open architecture provides the flexibility to add forms and reports while the scalability provides growth potential without the growing pains. Powerful management reports are available when you need them – from anywhere.

Capture employees' time through a secured website, or using devices such as electronic data clocks, biometric devices, telephones and PC-based systems. With an easy-to-use interface for employees and managers, superior technical support, and a proven track record, **TimeCentre** remains the choice for time, attendance and workforce management.

Crystal Reports for Sage Abra and Sage MAS90, Sage MAS200 Classes, Advanced Tools for Sage MAS90, Sage MAS200

Send your key personnel to our Crystal Reports classes for hands-on, practical training in report design using this powerful tool within your existing Sage Abra, MAS90 or MAS200 system. These system-specific sessions present knowledge and skills required to organize data in the format most useful to **your** organization.

Rudimentary and advanced sessions are available to accommodate a variety of participant experience levels. These sessions will empower users to expand system reporting capabilities exponentially!

Advanced Tools for Sage MAS90 and Sage MAS200. Are you getting the most out of your Sage MAS90 or Sage MAS200 system? This course will introduce you to the world of Custom Office and advanced methods of data mining.

Watch for class schedules or call Denise Miceli at 937-433-8122 for more information.
